

PrinTerra™

Terra3E

Print your Petrel* Model in 3D!

PrinTerra is an easy and innovative tool for printing in 3D your Petrel* geological and reservoir models.

PrinTerra can be used with any printer through the popular Collada file format.

The PrinTerra interface allows:

- Defining the size of the printable models
- Using different aspect ratio
- Exporting the textures of your Petrel models (Facies color tab, pressure color tab, etc.)
